To whom it may concern,

COVID-19 Operational Plans and Strategies for the Reopening of SLURP N BURP

Slurp N Burps current operational seating is at 76 people, this will be reduced by 75% bringing the number of people down to no more than 19 and to include all staff.

Every person before entering through the front door (only door coming in) will be required to undergo a Inferred Thermometer check on the forehead and must not show a temperature greater than 100.4 degrees Fahrenheit. If a temperature is above that, the person will be politely told that due to our operational plan will not be able to enter. Our door staff will be wearing a face mask while performing this task.

Thermometer is a LIYA Model:LY168

Sitting at the bar will be allowed but at 6 feet separation. One person per table with the exception of family members or partners.

Snacks will still be available upon request and will be dished by the staff and placed in front of the individual in a disposable plate and told not to share unless to a family member.

The using of remotes shall be done by staff at the request from customers.

Hand sanitizer shall be available to anyone that requests.

Staff will be required to wash hands with soap after every serve.

Bathrooms will be Cloroxed and wiped every hour unless the bar is empty.

Tabs will be recommended to slow all physical hand to hand transactions.

Upon the last customer to leave staff will stay back and sanitize the Bar, Chairs, tables and bathrooms.

For any further information needed, please feel free to call me on 688-4386

Craig Murray, Slurp N Burp.
